

Thank you!

Our Kindergarten has recently gone under some construction! Due to the answer to prayers for increased enrollment, SHS Kindergarten began the school year with 25 darling little students! New tables and chairs were purchased by SHOP, and the classroom space was improved by the building of new cubbies from the McMillen family. Pictured is the class in front of the new cubbies where each child has his/her own space for coats, bookbags, classroom supplies, rest mats, and lunchboxes. Above space is used for storage. Miss Molly would like to thank Terry McMillen and sons for the amazing carpentry in such short notice and SHOP for funding the project and other furniture.
